www.tekmadev.com

*Motivated and growth-oriented developer seeking to advance into a **Senior Developer** role within a dynamic and collaborative team environment. Eager to take on more **technically challenging projects** that leverage **emerging technologies**, including **AI-powered solutions**. Passionate about contributing to innovative workflows in the **IT industry**, continuously learning, and making impactful contributions to modern development stacks.*

WORK EXPERIENCE

Tekmadev (www.tekmadev.com) - Full Stack Developer (Freelance)

September 2019 - current

Remote

- **Shipped 20+** web and mobile projects end to end using **Next.js, React, React Native, Angular, PHP, Laravel, WordPress, Firebase, SQL and NoSQL**.
- **Built** Sofan NFT social platform with Firebase auth, real time data, and a responsive Next.js UI.
- **Delivered** a marketing site with **PHP, React, Next.js** that lifted inquiries by 25% and traffic by 15% in four months.
- **Created** small business sites with **WordPress, Angular** and **Next.js**, improving online reach by 15% to 30%.
- **Developed** cross platform **React Native** features with a Python back end to streamline operations and boost engagement.
- **Implemented AI** automation and prompt engineering with **OpenAI** and **n8n** to cut repetitive tasks and speed content workflows.
- **Owned discovery**, UX wireframes, **SEO**, analytics, testing and CI/CD on **Vercel, Firebase** and **AWS**.
- **Managed cross-functional teams** of developers and designers to deliver high-quality projects on time and ensure clients were satisfied.

Linen Chest - Full Stack Web Developer

August 2021 - August 2023

Remote

- **Feature Developed** and **enhanced e-commerce features** on a **PHP/Magento** platform (**MySQL, C#, XML, HTML/CSS, JavaScript, React**) with multi-language support.
- Built and integrated a React-based shopping cart compatible with **Magento** and **PHP**, improving checkout performance and customer experience.
- **Debugged** and resolved critical issues across the stack using **Noibu** and **Jira**, reducing error-related revenue loss and support tickets.
- **Worked in Agile** sprints to test and release features on time; optimised queries and page load times to improve stability.
- Added customer-facing tools (gift registry, order tracking) and promotional features, increasing user engagement.

Brossard App Design - Junior Full Stack Developer

August 2020 - August 2021

Montreal, QC

- Wireframed client requests into low and high fidelity designs and secured stakeholder alignment.
- Maintained and improved company website features to enhance UX, performance and reliability.
- Built a React Native calendar and daily task app and contributed modules to a gym app.
- Analyzed data and optimized MySQL queries to cut manual entry and improve data structure and flexibility.
